INTRODUCTION TO THE PUBLIC ACCOUNTS OF MANITOBA

The Public Accounts of the Province of Manitoba are prepared by statutory requirement, in accordance with the Financial Administration Act, which is Chapter F55 of the Continuing Consolidation of the Statutes of Manitoba.

The Public Accounts are organized as follows:

VOLUME 1 — FINANCIAL STATEMENTS:

Accounting Policies are detailed at the beginning of this volume.

Section 1 includes the main Financial Statements for the year ended March 31, 1982.

Section 2 includes the Schedules which provide the supporting detail for the Assets and Liabilities as shown on the statement of Operating Fund Assets and Liabilities as at March 31, 1982.

Section 3 reports on the debt of the Province, both direct and guaranteed.

Section 4 provides detailed Revenue and Expenditure statements on the operation of the Government.

Section 5 provides information on the Trust Operations of the Government, including detailed Trust Fund Statements.

Section 6 outlines the operation of other miscellaneous funds.

VOLUME 2 — SUPPLEMENTARY INFORMATION:

This volume provides details of Salaries and Wages paid to Employees and Cash Paid to Corporations, Firms, Individuals, Municipalities, Cities, Towns and Villages during the fiscal year.

Vic Schroeder
Minister of Finance.

**REPORT OF THE PROVINCIAL AUDITOR
ON THE CONSOLIDATED FUND FINANCIAL STATEMENTS
IN THE PUBLIC ACCOUNTS OF MANITOBA**

I report that the Consolidated Fund financial statements together with the supporting data and explanatory notes included in the Public Accounts have been examined under my direction for the fiscal year ended March 31, 1982. The examination was made in accordance with generally accepted auditing standards and included such inquiries, tests and other procedures as were considered necessary to enable me to report as required by section 14 of The Provincial Auditor's Act.

In accordance with an order-in-council issued under the authority of the Special Municipal Loan and General Emergency Fund Act, the credit balance remaining in the Special Municipal Loan and General Emergency Fund — Reserve Account of \$24,996,733 was transferred to revenue. As at the preceding fiscal year end the balance of this Reserve Account, which was the same, was applied as a reduction of the Excess of Liabilities over Recorded Assets balance. If the same procedure had been followed in this fiscal year the deficit for the fiscal year ended March 31, 1982 would have been larger by \$24,996,733. Because the balance in the Reserve which was transferred to revenue was not funded, funding by way of borrowing was required for this amount in addition to the stated deficit.

Subject to the foregoing, in my opinion, the Consolidated Fund financial statements, together with the supporting data and explanatory notes in the Public Accounts, fairly present information in accordance with the accounting policies of the Government stated in the Public Accounts on a basis consistent with that of the preceding year, except as explained in the preceding paragraph.

W. K. Ziprick, C.A.,
Provincial Auditor.

GOVERNMENT OF THE PROVINCE OF MANITOBA ACCOUNTING POLICIES — STATEMENT AND APPLICATION

STATEMENT

The basic accounting policies followed by the Government of Manitoba, which have been applied in the preparation of these Public Accounts, are summarized below. These policies have been developed and are applied in accord with the provisions of the Financial Administration Act, which is Chapter F55 of The Continuing Consolidation of The Statutes of Manitoba. Further information regarding their application to the financial transactions of the Government is provided in the section entitled "Application".

I. THE ACCOUNTING ENTITY

The financial transactions of the Government are recorded in "The Consolidated Fund." The activities of The Consolidated Fund are divided into the "Operating Fund", which records the operational activities of the Government, and the "Trust Fund", which records the trust administration function.

Financial statements prepared for the "Operating Fund" report amounts received as Government revenue, expenditure on Government programs, the lending and investment of Government funds and the borrowing and repayment of debt. Financial statements prepared for the "Trust Fund" report the activities in the various categories of trust money administered by the Government.

The financial operations of the provincial Crown Corporations, Agencies, Boards and Commissions are reflected in The Consolidated Fund to the extent that:

- 1) They receive money from or pay money to the Government.
- 2) Any deficits they incur are adjusted against the amounts loaned, advanced or invested in them by the Government.

II. CASH BASIS OF ACCOUNTING

A REVENUE

- i) Revenue, with the exception of shared-cost receipts and Canada-Manitoba Fiscal Arrangements, is ordinarily recorded on a cash basis. Accordingly, all money received by Departments on or before March 31 is included in the revenue for the fiscal year, provided that it is deposited with the Minister of Finance prior to the fifteenth day of April, immediately following.
- ii) Money received pursuant to shared-cost agreements and arrangements that extend over more than one fiscal year is recorded as revenue in each fiscal year in proportion to the related expenditure made in the respective year. Accordingly, the uncollected balance of the shared-cost claims related to the fiscal year being reported will be included in the revenue of that fiscal year.

iii) Revenue and expenditure are recorded in gross amounts (referred to as the Gross Accounting Concept) with the exception of the Municipal Share of Individual and Corporation Income Taxes, which is paid to Municipalities in accordance with the Provincial-Municipal Tax Sharing Act and is not recorded as revenue by the Government.

iv) Recoveries from Crown Corporations and Government Agencies of the debt servicing costs on self-supporting debt and certain investment income are recorded as a reduction of Public Debt expenditure.

B EXPENDITURE

Expenditure is recorded on a cash basis, modified to allow an additional forty-five days after the end of the fiscal year for the processing of payments pertaining to that fiscal year. Salaries and wages, however, are charged to the fiscal year in which they are paid. As well, an accrual is made to March 31st for interest payable on bonds, debentures and other securities.

III. ASSETS AND LIABILITIES

1. The assets and liabilities reported in the financial statements are financial claims consisting of assets which are claims by the Government on other parties and liabilities which are claims by other parties on the Government.
2. Expenditure for the acquisition and/or construction of physical assets together with inventories and other deferred expenditures is not considered to differ from any other service to the public and accordingly is treated as operating expenditure of the year in which the expenditure is made. Since such expenditure does not represent financial claims on others, it is not reported as an asset at fiscal year-end. This does not negate the fact that the Government has substantial holdings of physical assets such as buildings, highways, education, and health facilities, which may tend to appreciate in value over time.
3. Amounts loaned, advanced or invested in Crown Corporations, Agencies, Boards and Commissions are subject to annual revaluation. An Allowance For Losses On Realization Of Assets is provided and is adjusted annually to reflect the estimated change in value of these assets.
4. Bonds, debentures and other securities are recorded as liabilities at the par value of such securities and any discount, premium or commission expense is treated as an expenditure of the year in which it is incurred. For foreign issues, the par value is converted to Canadian Funds at the exchange rate in effect at the date of issue, or the actual conversion rate of the proceeds. Sinking funds are maintained in accordance with the legal requirements of the debt instruments and the Financial Administration Act.

IV. GUARANTEED AND INDIRECT LIABILITIES

In addition to having direct debt, the Government also acts as a guarantor of securities issued by various other entities. The debt guaranteed pertaining to Crown Corporations, Agencies, Boards and Commissions is largely self-supporting. Other guaranteed debt for schools, universities and hospitals is serviced in whole or in part from appropriations of the Consolidated Fund. Legislation requires the maintenance of Sinking Funds for the retirement of the debt of most Crown Corporations, Agencies, Boards and Commissions. These Sinking Funds are maintained by the Minister of Finance through annual contributions from the Crown Corporation, Agency, Board or Commission to whom the debt applies and are held in the Trust Fund.

Other Contingent Liabilities that result from other financial activities of the Government are also reported annually in the Public Accounts.

APPLICATION

The following outlines the application of these accounting policies to the financial transactions of the Government:

I. REVENUE

The revenue of the fiscal year is generally the amount received during the fiscal year. An exception is made for shared-cost receipts, and Revenue from the Government of Canada, which are subject to the following additional practices:

- a) Where, pursuant to an agreement or arrangement, money is received in advance relating to projects for which expenditure is to be made in more than one fiscal year, the money is deemed to have been received in each fiscal year in proportion to the related expenditure made in the respective fiscal year. A statement of the amounts not taken into Revenue (Deferred Revenue) is included in Section 4 of the Public Accounts.
- b) It is the practice to show the uncollected balance of claims related to shared-cost agreements with the Government of Canada as an accounts receivable at March 31. This accrual is made in order that the revenue from this source is recorded in proportion to the related expenditure incurred in the fiscal year.
- c) An additional practice is in effect regarding revenue from the Government of Canada under the Canada-Manitoba Fiscal Arrangements. The accounts are kept open until June 30 to reflect any adjustments to this revenue for the fiscal year just ended that the Government of Manitoba may become aware of before that date. Since this is the Government's largest single source of revenue, this practice is considered necessary to show the financial condition of the Government in the most accurate manner possible.

II. EXPENDITURE

The expenditure of the fiscal year is essentially the payments made from appropriations during the fiscal year and for a subsequent forty-five day period after March 31. The accounts remain open during this period to allow processing time for expenditure pertaining to the fiscal year just ended.

An exception to this procedure is made for the interest cost on the long-term debt of the Government. In this regard, an accrual is made to March 31st for the interest payable on bonds, debentures and other securities. In the case of foreign issues, the accrual is based on the exchange rate that was recorded at the time of debt issue. There is no provision made for the fluctuation of foreign currencies between the debt issue dates and the interest payment dates.

The Allowance For Losses On Realization of Assets is not charged to an appropriation. This amount, which represents an estimate of the change in recoverable value of the loans, advances and investments in Crown Corporations, Agencies, Boards and Commissions during the fiscal year, is not shown on the Statement of Revenue and Expenditure. It is reported on the statement that discloses the Excess of Liabilities Over Recorded Assets unless there is a legal realization of the loss, in which case the final write off of the loan, advance or investment will be disclosed after the operating results on the Summary of Revenue and Expenditure. The final write off of the loan, advance or investment will be detailed as to the year in which the allowance was recorded.

Payments made during the fiscal year from depreciation and replacement reserves established pursuant to section 20 of the Financial Administration Act are not aggregated with provincial expenditure because the reserves were originally created and are supplemented annually from funds charged to expenditure appropriations.

A separate category of expenditure, called "Acquisition/Construction of Physical Assets" has been established to record property acquired for use by the Government, both real and chattels, which normally have an economic life in excess of one year. This category also includes expenditures and grants to municipalities, school divisions, external agencies, etc. which are known to be for the purpose of acquiring physical assets. Included as well are those projects which entail major construction or reconstruction, the result of which will significantly prolong the expected economic life of the asset.

III. ASSETS AND LIABILITIES

The statement of Assets and Liabilities is prepared in accordance with the following practices:

1. TEMPORARY INVESTMENTS

This category includes securities held as a result of the investment of the Government's cash flow and is generally comprised of money market instruments such as term deposits and negotiable securities which are intended to be held for a short term. All investments are shown at cost.

2. ADVANCES AND OTHER RECEIVABLES

Advances to Crown Corporations, Agencies, Boards and Commissions, which are generally interest bearing, are shown under this heading as well as financial claims on the Government of Canada and other parties. Amounts due within one year of the statement date are shown as "Current Amounts" and all others are classified as "Not Current". Balances under the advances category are not separated into a current portion and non-current portion even though repayment schedules may exist for some of these items. The Sinking Funds provided by Crown Corporations,

Agencies, Boards and Commissions for repayment of the debt issued to fund advances to these entities are deducted from the advances.

Certain of the Crown Corporations are charged with a responsibility for administering Government programs for which they receive funds from Government appropriations. These funds are applied by the Corporation towards the program administration cost, including, in some cases, a portion of the interest they are charged on these advances. The principal repayment and/or interest charges for certain of the advances are dependent on total or partial funding from future appropriations of the Operating Fund.

3. LONG-TERM INVESTMENTS

The majority of the Province's long-term investments consist of shares and debentures of Crown Corporations. These investments are carried at cost which does not reflect the realizable value of the investments. Any decrease in the estimated realizable value is provided for in the Allowance for Losses On Realization of Assets, which is described in the next paragraph.

4. ALLOWANCE FOR LOSSES ON REALIZATION OF ASSETS

An allowance is provided for decreases in the value of loans, advances and investments and is adjusted annually for changes that may occur in the estimated realizable value of these assets. The allowance is intended to provide for the accumulated deficits of the Crown Corporations, Agencies, Boards and Commissions in which the Government has invested money by way of loans, advances or purchases of shares. The valuation is based on the most recent audited financial statements applicable to the fiscal year being reported that are available at the time of publication of the Public Accounts. If the Government has more than one type of investment in an organization (eg. common shares, preferred shares and debentures), the accumulated deficit is assigned against the investments in order of priority on liquidation.

5. EXCESS OF LIABILITIES OVER RECORDED ASSETS

This account represents the difference between liabilities, which are financial claims owing by the Government, and recorded assets, which are financial claims receivable by the Government. Since the physical assets and materials inventories of the Government do not constitute a financial claim receivable by the Government, they are not considered in the determination of this balance.

6. AMOUNT OWING TO TRUST FUND

A large portion of this money has been deposited with the Minister of Finance in accordance with the terms of the legislation regulating the management of sinking funds and surplus cash of Crown Corporations, Agencies, Boards and Commissions, but is not specifically invested. Such deposits are accorded a market rate of interest.

7. BANK OVERDRAFT AND PROMISSORY NOTES

This category represents the net overdraft in Government bank accounts adjusted for cheques issued

prior to and not presented for payment at March 31 and for cash in transit. Short term promissory notes are issued in lieu of increasing bank overdraft or liquidating investments to accommodate fluctuations in the cash flow cycle and are therefore considered together with the bank overdraft. Cheques issued subsequent to March 31 but chargeable to the fiscal year just ended are described in the next category.

8. ACCOUNTS PAYABLE, ACCRUED CHARGES AND FUNDS SUBJECT TO CALL

Cheques issued during the forty-five day period after March 31, in payment for goods and services pertaining to the fiscal year just ended are shown as accounts payable rather than as outstanding cheques.

Accrued charges represent the accrual of interest on provincial securities.

Funds subject to call consist in part of money received from the Government of Canada that will not be taken into revenue until earned. This was earlier described as Deferred Revenue in paragraph 1 a). As well, this category includes the liability for uninvested cash belonging to the Provincial Sinking Fund. This cash is designated as part of the Provincial Sinking Fund and must be kept available for investment.

9. RESERVE ACCOUNTS

Depreciation and Replacement Reserves are maintained by the payment of annual allotments from appropriated funds and by deposit of the proceeds from sale of equipment. The accumulated purchases of machinery and equipment that have been made from the reserve accounts are deducted from the reserve balances to show the amounts still available.

10. BONDS, DEBENTURES AND OTHER SECURITIES

This category includes bonds, debentures, secured loans from the Government of Canada, treasury bills and notes. Securities issued in Canadian Funds are recorded at par value. Securities issued in foreign funds are recorded at the Canadian Dollar equivalent of the par value based on the actual conversion of the proceeds or at the exchange rate in effect at the date of issue if conversion does not take place at issue date. Securities payable in foreign funds issued for the purpose of refunding other issues payable in the same currency are recorded at the Canadian Dollar equivalent of the par value at the date of issue.

The Government is required, by legislation, to determine the Canadian Dollar equivalent of provincial securities issued in foreign currencies or units of monetary value at March 31st of each year. The amount determined must be published in the Public Accounts as information regarding the current valuation of this foreign debt. This statement is included in section 3 of the Public Accounts.

11. SINKING FUNDS PROVIDED

Sinking funds are maintained in accordance with the legal requirements of the debt instruments and the Financial Administration Act. Money is allocated annually to these sinking funds on the following basis:

- a) A sum equal to 3% of the aggregate amount of general purpose debt, in Canadian Dollars, outstanding at the end of the preceding fiscal year; and
- b) All earnings derived from investing the sinking fund.

In addition principal repayments of advances which are funded by the issue of provincial securities are deposited to the sinking fund provided that the principal repayments are made prior to the maturity date of such securities.

The total shown for sinking funds also includes sinking fund money provided by Crown Corporations, Agencies, Boards and Commissions in respect to debt incurred on their behalf by the Government.

IV. TRUST FUNDS

The Trust Fund is divided into two primary divisions, Administered Trusts and Custodial Trusts. Those trusts where the Government has the responsibility for the administration and for investment of the trust are considered Administered Trusts. Those trusts where the Government responsibility is custodial in nature and there is little or no administration responsibility are considered Custodial Trusts. Generally, the responsibility for investment of a Custodial Trust is that of the depositor. A statement of Assets and Liabilities for the Trust Fund is included in the Public Accounts showing the assets and liabilities for Administered Trusts. Details of Custodial accounts are set out in a note to the statement of Assets and Liabilities.

Administered trusts are divided into five categories:

1. Sinking Funds — This category includes sinking fund contributions deposited with the Minister of Finance by Crown Corporations, Agencies, Boards and Commissions in respect of their direct debt.
2. Funds on Deposit For Investment — Funds surplus to the immediate cash requirement of Crown Corporations, Agencies, Boards and Commissions are deposited for investment with the Minister of Finance. Although certain of these deposits are covered by specific investments in the Trust Fund, the majority of these funds are invested with the Minister of Finance and interest is paid at market rates in accordance with the term of the investment.
3. Banking Facility Accounts — These accounts are operated for those Crown Corporations, Agencies, Boards and Commissions who bank with the Minister of Finance.
4. Operating Trusts — Certain trusts are established where legislation or agreements require receipts and related expenditure to be kept separate from government revenue and expenditure. These "designated trusts" may, in some cases, be used for programs similar to those operated from appropriated funds but are kept separate because a trust requirement has been established. A separate Statement of Receipts and Payments is prepared for each of these operating trusts and is published in the Trust Fund section of the Public Accounts.
5. Miscellaneous Trusts — This category contains trust accounts resulting from the sundry deposit of cash and/or securities with the Government.

V. CHANGES IN FINANCIAL POSITION

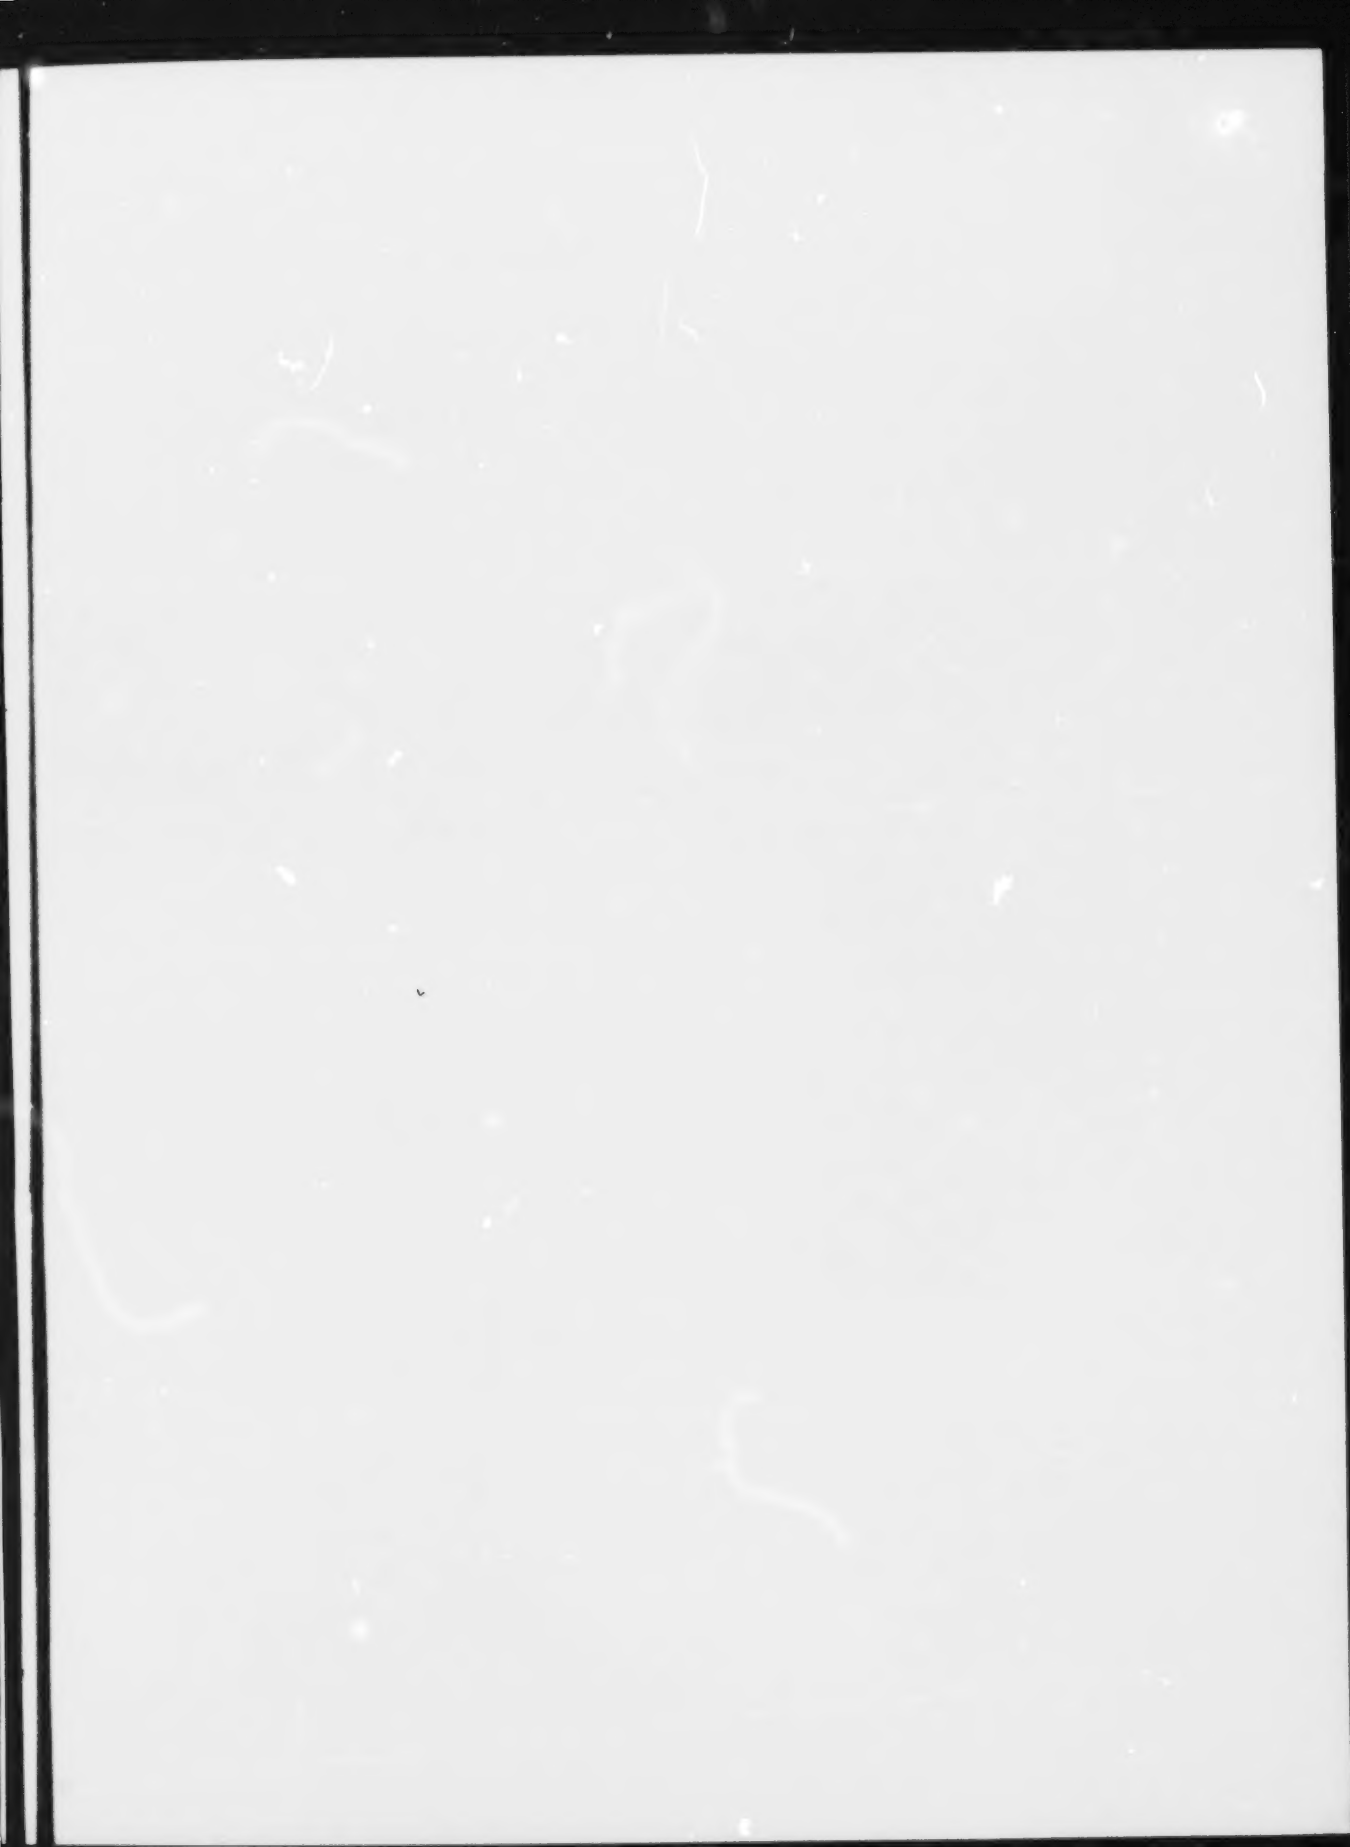

A statement presenting the changes in the Government's financial position during the fiscal year is included in section 1 of the Public Accounts. For purposes of this statement, working capital is defined to include the following:

- a) Cash
- b) Temporary Investments
- c) Current portion of advances and other receivables
Minus
- d) Amounts owing to Trust Fund
- e) Bank overdraft and promissory notes
- f) Accounts payable, accrued charges and funds subject to call

VI. CHANGES IN ACCOUNTING POLICY

Section 10 of the Financial Administration Act requires a statement of any change in the accounting policies of the Government from those followed in the preceding fiscal year as follows:

- a) The Special Municipal Loan and General Emergency Fund, which in previous years was treated as a reserve account and deducted from the "Excess of Liabilities Over Recorded Assets" account, has been abolished. This was accomplished by a transfer of the fund balance to revenue in accordance with the provisions of the Special Municipal Loan and General Emergency Fund Act. The result was an increase of revenue of \$24,996,733 for the 1981-82 fiscal year and an increase in the balance of the "Excess of Liabilities Over Recorded Assets" account for a corresponding amount.

NOTE 1: This fund was transferred to revenue during the fiscal year in accordance with the provisions of the Special Municipal Loan and General Emergency Fund Act. The fund balance originated from money declared to be "excess of revenue over expenditure" in the 1973-74 and 1974-75 fiscal years. The money was not specifically designated and set aside for the exclusive use of the Fund but remained as part of the general working capital of the Province and has been used in the general operations of the Government. Consequently, the transfer of the fund balance in 1981-82 increased the Net Financial Requirement of the Government which was financed through borrowing.

AMOUNT OWING TO THE TRUST FUND

As at March 31, 1982
(with comparative figures for March 31, 1981)

	March 31, 1982	March 31, 1981
Amount advanced from Trust Fund (Note 1)	<u>\$313,408,597</u>	<u>\$244,370,858</u>

NOTE 1: Primarily surplus cash of Crown Corporations, Agencies, Boards and Commissions on deposit with the Minister of Finance for investment, but not specifically invested. The Government's policy with respect to money management requires that all short-term investments be made in the Operating Fund regardless of the source of the money. At any time the aggregate amount and average term of short-term investments may or may not equal the aggregate amount and average term of the trust funds on deposit with the Government. At March 31, 1982, the amount of Temporary Investments exceeded the amount advanced from the Trust Fund by \$290,933,815.

	<u>\$250,273,452</u>	<u>\$184,683,915</u>

NOTE 1: This amount represents uninvested Sinking Fund cash that is on deposit in the Government Bank Accounts and is thereby an amount that is owing to the Sinking Fund. For further information, please refer to the schedule of Sinking Funds Provided.

NOTE 2: The debts owing to the Canada Mortgage and Housing Corporation by the Manitoba Housing and Renewal Corporation and by the Manitoba Water Services Board were \$239,872,605 and \$2,920,943 respectively. Although this indebtedness is not guaranteed by the Government, under the terms of subsidy arrangements with Canada, payments are required from appropriations on account of partial servicing of the indebtedness.

NOTE 3: The Government of Manitoba has a legislative requirement to pay, on a matching basis, one-half of the annual pension payments made through the Civil Service Superannuation Fund (with the exception of the share payable by Government Agencies for their employees) and the Teachers'

Retirement Allowance Fund. The Government's contribution is therefore made on the basis of actual pension payments made by these Funds to retired employees. The amounts held in the Funds represent only the employees' obligation towards the total pension liability. The reserve accounts at December 31, 1981 were as follows:

	Reserves
Civil Service Superannuation Fund	\$318,187,480
Teachers' Retirement Allowances Fund	<u>222,059,789</u>
TOTAL	<u>\$540,247,269</u>

NOTE 4: Expenditures made by School Divisions under the Education Foundation Program for which reimbursement is not made until the following fiscal year amounted to \$65,623,557 as at March 31, 1982 (\$59,668,326 at March 31, 1981). Provision is made for reimbursement of this amount in the Government's 1982-83 Appropriations.

NOTE 4: The presentation of the actual revenue for the 1980-1981 fiscal year has been changed to reflect the organizational structure of Departments as established in the 1981-1982 Estimates. Organizational changes made subsequent to the 1981-1982 Estimates are minor in nature and have not been reflected in the amounts presented for that fiscal year.

EXPLANATORY COMMENTS REGARDING REVENUE INCREASES (DECREASES)

**As shown on the
Statement of Revenue
for the year ended March 31, 1982**

The total revenue of \$2,180.8 million for the year ended March 31, 1982 has increased from the previous fiscal year's total of \$1,968.4 million by \$212.4 million. The larger revenue increases and decreases consist of the following (in millions of dollars):

Larger Increases:

Individual Income Tax	\$101.4
Retail Sales Tax	25.8
Transfer from Special Municipal Loan and General Emergency Fund	25.0
Gasoline Tax	20.3
Liquor Control Commission	9.6
Motive Fuel Tax	7.7
Tobacco Tax	5.6
Mining Royalty Tax	5.5
Highways — Sundry	4.2
Corporation Income Tax	3.1
Established Programs Cash Transfer from Canada	2.7
Water Resources	2.4
Revenue Act, 1964, Part I	2.0
Corporation Capital Tax	1.8
	<u>\$217.1</u>

Larger Decreases:

Metallic Minerals Tax	\$ 14.3
Others — Net Increase	\$ 9.6
Net Increase	<u>\$212.4</u>

The net increase of \$101.4 million in revenue from Individual Income Tax was the largest factor contributing to this increase. Comments on this and other significant increases and decreases and on significant variances between actual and estimates are made in the following paragraphs:

INDIVIDUAL INCOME TAX (\$101.4 million increase)

The increase in Individual Income Tax Revenue of \$101.4 million from \$412.9 million for the fiscal year ended March 31, 1981 to \$514.3 million for the fiscal year ended March 31, 1982 is mainly attributable to growth in the advance payments received from the Federal Government based on Federal estimates of 1981 collections, as well as to upward adjustments of prior years' payments. The 1981-82 revenue is net after transferring revenue of \$15.4 million to municipal corporations.

The actual revenue received of \$514.3 million exceeded the Estimate by \$63.7 million because of prior year adjustments which could not be anticipated at the time the Province's Estimate was finalized.

RETAIL SALES TAX (\$25.8 million increase)

The increase in Retail Sales Tax Revenue of \$25.8 million from \$243.2 million for the fiscal year ended March 31, 1981 to \$269.0 million for the fiscal year ended March 31, 1982 results from a combination of general price increases and increased volume in certain sectors of the economy.

Because the general price increases were higher than those anticipated the actual revenue received of \$269.0 million was \$8.8 million greater than the amount estimated for the fiscal year.

TRANSFER FROM SPECIAL MUNICIPAL LOAN AND GENERAL EMERGENCY FUND (\$25.0 million increase)

The Special Municipal Loan and General Emergency Fund was abolished during the fiscal year. This was accomplished by a transfer of the fund balance to revenue in accordance with the provisions of the Special Municipal Loan and General Emergency Fund Act. The transfer of this amount was provided for in the revenue estimates for the fiscal year.

GASOLINE TAX (\$20.3 million increase)

The increase in Gasoline Tax Revenue of \$20.3 million from \$61.6 million for the fiscal year ended March 31, 1981 to \$81.9 million for the fiscal year ended March 31, 1982 is mainly due to increases in the costs of gasoline and aviation fuel against which ad valorem tax rates are applied. The effect of these increases were partially offset by reductions in consumption of 4.7% for gasoline and 5.1% for aviation fuel.

The actual revenue received of \$81.9 million exceeded the amount included in the Estimates by \$7.2 million because the extent of increases in the costs of gasoline and aviation fuel were not fully anticipated.

LIQUOR CONTROL COMMISSION (\$9.6 million increase)

The increase in Liquor Control Commission Revenue of \$9.6

million from \$81.6 million for the fiscal year ended March 31, 1981 to \$91.2 million for the fiscal year ended March 31, 1982 results from a combination of increased sales volume and price increases, including the indexing of Excise and Custom Taxes by the Federal Government. The actual revenue of \$91.2 million exceeded the Estimate by \$3.7 million because the product mix and sales prices were different than originally estimated.

MOTIVE FUEL TAX (\$7.7 million increase)

The increase in Motive Fuel Tax Revenue of \$7.7 million from \$19.6 million for the fiscal year ended March 31, 1981 to \$27.3 million for the fiscal year ended March 31, 1982 is the result of increases in the costs of clear diesel, off-highway diesel and railway diesel against which ad valorem tax rates are applied. Commercial heating oil, bunker and propane heating also experienced similar increases of a lesser degree. A reduction in consumption partially offset the effect of these increases.

Unanticipated increases in the costs against which ad valorem rates are applied also caused the total amount of Motive Fuel Tax Revenue of \$27.3 million to be \$4.7 million higher than anticipated in the Estimate for 1981-82.

TOBACCO TAX (\$5.6 million increase)

The increase in Tobacco Tax Revenue of \$5.6 million from \$30.9 million for the fiscal year ended March 31, 1981 to \$36.6 million for the fiscal year ended March 31, 1982 is mainly due to an increase in the tax rate on cigarettes. The rate was increased from 1.2¢ per cigarette to 1.4¢ per cigarette, effective May 4, 1981. Tax rate increases were also imposed on other tobacco products. The actual revenue received of \$36.6 million exceeded the estimate by \$1.2 million because consumption of tobacco products was greater than anticipated.

MINING ROYALTY TAX (\$5.5 million increase)

The increase in Mining Royalty Tax Revenue of \$5.5 million from \$0.5 million for the fiscal year ended March 31, 1981 to \$6.0 million for the fiscal year ended March 31, 1982 is the result of audit recoveries made during the fiscal year pertaining to prior years. The actual revenue received of \$6.0 million was equivalent to the amount estimated for the fiscal year.

HIGHWAYS — SUNDRY (\$4.2 million increase)

The increase in Sundry Revenue of \$4.2 million from \$2.4 million for the fiscal year ended March 31, 1981 to \$6.6 million for the fiscal year ended March 31, 1982 is mainly the result of costs recovered for highway construction work undertaken for Manitoba Hydro.

The actual revenue received of \$6.6 million exceeded the estimate by \$4.7 million because this cost recovery was not anticipated in the revenue estimate.

CORPORATION INCOME TAX (\$3.1 million increase)

The increase in Corporation Income Tax Revenue of \$3.1 million from \$111.7 million for the fiscal year ended March 31, 1981 to \$114.9 million for the fiscal year ended March 31, 1982 is mainly attributable to increased estimates of corporation taxable income in Manitoba for 1981 over the previous tax year, and the net effect of prior years' adjustments and a reduction in revenue received under the Public Utilities Income Tax Transfer Act. The 1981-82 revenue is net after transferring \$9.7 million to municipal corporations. The actual revenue

received of \$114.9 million is less than the Estimate by \$17.3 million due to adjustments to Federal Estimates of provincial tax base shares and negative adjustments for prior years.

ESTABLISHED PROGRAMS CASH TRANSFER FROM CANADA (\$2.7 million increase)

The increase in the Established Programs Cash Transfer of \$2.7 million from \$285.5 million for the fiscal year ended March 31, 1981 to \$288.2 million for the fiscal year ended March 31, 1982 is mainly attributable to increases in current-year entitlements as estimated by the Federal Government, partially offset by negative prior-year adjustments (as compared with positive prior-year adjustments received in 1980-81).

The actual revenue received of \$288.2 million is less than the Estimate by \$19.0 million. The Estimate was based on the latest information available from the Federal Government of the amount that would be payable to Manitoba during the 1981-82 fiscal year at the time the Province's Estimate was finalized.

WATER RESOURCES (\$2.4 million increase)

The increase in Water Resources Revenue of \$2.4 million from \$7.8 million for the fiscal year ended March 31, 1981 to \$10.2 million for the fiscal year ended March 31, 1982 is mainly the result of an increase in water power rental rates, effective June 1, 1980. Because these rentals are collected on a calendar year basis, the higher rates had only partial effect on the 1980-81 fiscal year whereas they had full effect on this fiscal year. The actual revenue received was slightly more than the \$10.1 million estimated for the fiscal year.

REVENUE ACT, 1964, PART I (\$2.0 million increase)

The increase in Revenue of \$2.0 million from \$19.7 million for the fiscal year ended March 31, 1981 to \$21.7 million for the fiscal year ended March 31, 1982 results primarily from an increase in the price of natural gas. The actual revenue received of \$21.7 million exceeded the Estimate by \$1 million because natural gas prices increased more than anticipated.

CORPORATION CAPITAL TAX (\$1.8 million increase)

The increase in Corporation Capital Tax Revenue of \$1.8 million from \$16.0 million for the fiscal year ended March 31, 1981 to \$17.8 million for the fiscal year ended March 31, 1982 is primarily due to audit recoveries and inflationary factors. The actual revenue received of \$17.8 million was slightly more than the \$17.5 million estimated for the fiscal year.

METALLIC MINERALS TAX (\$14.3 million decrease)

The decrease in Metallic Minerals Tax Revenue of \$14.3 million from \$23.1 million for the fiscal year ended March 31, 1981 to \$8.8 million for the fiscal year ended March 31, 1982 is partially due to over-estimates of installments by mining companies in the 1980-81 fiscal year which caused a reduction in installments during the 1981-82 fiscal year. As well, a depressed market for minerals resulted in a reduction in mining company profits subject to royalty tax.

The actual revenue received of \$8.8 million is less than the Estimate by \$14.7 million. The Estimate was based on mining company estimates of installments to be made by them in the 1981-82 fiscal year. Since profits of the mining companies were less than anticipated, the installments were over-estimated.

NATIONAL EQUALIZATION (\$0.6 million increase)

The increase in National Equalization of \$0.6 million from \$404.0 million for the fiscal year ended March 31, 1981 to \$404.6 million for the fiscal year ended March 31, 1982 reflected the current entitlement of the Province, as estimated by the Federal Government, as well as Federal re-estimates of prior years' entitlements.

The actual revenue received of \$404.6 million is less than the Estimate by \$10.4 million. The Estimate was based on the latest information available from the Federal Government of the amount that would be payable to Manitoba during the 1981-82 fiscal year at the time the Province's Estimate was finalized.

GOVERNMENT OF CANADA — SHARED COSTS RECEIPTS (\$0.2 million increase)

Although the net increase in Government of Canada Shared Costs Receipts was only \$0.2 million, several significant increases and decreases occurred within the individual cost shared Agreements.

Receipts under the Department of Community Services increased by \$11.7 million primarily as a result of receipt of \$8.7 million in retroactive payments for the Home Care Program which is shareable under the Canada Assistance Plan. The actual revenue for this account exceeded the amount esti-

mated for the fiscal year mainly as a result of this retroactive adjustment because this receipt was not anticipated when the estimate was prepared.

Other significant increases over the previous fiscal year included \$1.5 million in the Department of Economic Development and Tourism regarding an increased level of provincial expenditure under the Canada-Manitoba Industrial Development Sub-Agreement, and the receipt of \$1.5 million in the Department of Urban Affairs as a result of increased expenditure under the Canada-Manitoba Winnipeg Core Area Agreement.

A decrease of \$8.2 million in receipts occurred in the Department of Northern Affairs as a result of termination of major portions of the Canada-Manitoba Northlands Agreement in 1980-81. Actual revenue for this account was \$11.3 million less than the Estimate because the Estimate made provision for establishment of a Canada-Manitoba Northern Development Agreement which was not finalized in 1981-82.

Shared cost revenue resulting from Flood Control and Emergency Expenditures decreased by \$4.6 million. Revenue of \$4.9 million was received for the fiscal year ended March 31, 1981, primarily as a result of expenditures for the 1979 flood. As no major emergencies have occurred since that time, shared cost receipts for the fiscal year ended March 31, 1982 were substantially reduced.

EXPLANATORY COMMENTS REGARDING EXPENDITURE INCREASES (DECREASES)

as shown on the
Statement of Expenditure
for the year ended March 31, 1982

The total expenditure of \$2,431.9 million for the year ended March 31, 1982 has increased from the previous fiscal year's total of \$2,057.9 million by \$374.0 million.

The increase of \$139.3 million in the Department of Health is the largest. This results mainly from an increase of \$132.2 million in payments to the Manitoba Health Services Commission to cover increased costs of hospital and personal care home operations and for increased expenditures under the medical program.

The next largest increase, \$97.9 million, occurred in the Department of Education, which required an additional \$69.3 million in payments to school divisions as a result of the introduction of the Educational Support Program.

Although salary and other general cost increases account for a substantial portion of the total increase, certain major items in departmental expenditures are commented on in the following paragraphs:

LEGISLATION (\$2.1 million increase)

Costs associated with the November, 1981 General Provincial Election increased expenditure in this Department by \$2.2 million.

AGRICULTURE (\$8.0 million decrease)

The decrease in expenditure in this Department results mainly from the termination of the Drought Relief Program, which was required to alleviate the effects of the 1980 drought conditions and resulted in the expenditure of \$16 million in the 1980-81 fiscal year. Similarly, the Hopper Car Leasing Program, which was introduced in 1980 to assist in the movement of grain and cost \$2 million in the 1980-81 fiscal year was also terminated.

These reductions are partially offset by an expenditure of \$5.0 million in 1981-82 to establish the Hog Producers Income Insurance Fund, and an increase of \$1.6 million in payments to the Manitoba Agricultural Credit Corporation primarily attributable to reduced profits on land sales and to an increase in the level of loan approvals under the Young Farmer Rebate Program.

ATTORNEY-GENERAL (\$7.4 million increase)

Law enforcement costs increased by \$3.5 million primarily due to general cost increases and partially as a result of the signing of a new policing agreement. Costs shared by the Province under the new agreement will now be calculated on a current basis rather than by the previous formula which used the previous year's costs. Expenditures for the operation of the Provincial Law Courts increased by \$1.6 million mainly because of salary increases.

CIVIL SERVICE (\$4.7 million increase)

The costs of employee benefits, as required by Legislation or agreement increased \$4.3 million as follows: Unemployment Insurance Contributions \$1.6 million, Dental Plan \$1.1 million, Civil Service Superannuation Plan \$0.7 million, Canada Pen-

sion Plan \$0.5 million, Workers' Compensation \$0.3 million, and Group Life Insurance \$0.1 million.

COMMUNITY SERVICES AND CORRECTIONS (\$37.1 million increase)

An increase of \$7.0 million in Social Allowances costs was caused by general cost increases and a general rate increase for social allowances recipients. Grants and subsidies under the Day Care Program increased by \$2.8 million due to expansion of support for day care. The operation of the Child Related Income Support Program (C.R.I.S.P.) for its first full year increased costs by \$5.5 million.

Rehabilitative Services experienced a cost increase of \$6.1 million. A portion of this increase resulted from higher levels of funding to A.R.M. Industries and to the Society for Crippled Children and Adults.

The cost of Maintenance of Children under the Child and Family Services Program increased \$2.0 million as a result of salary increases for Children's Aid Societies and Group Homes and increased rates paid to foster parents. An increase in the average age of children under care also contributed to higher maintenance costs.

Expenditure for Home Care Assistance increased by \$2.3 million due to increased rates and case load increases.

CONSUMER AND CORPORATE AFFAIRS AND ENVIRONMENT (\$1.2 million decrease)

The decrease of \$1.2 million reflects a reduction of \$2.7 million in payments to the Manitoba Housing and Renewal Corporation. Although the cost of programs administered by The Manitoba Housing and Renewal Corporation on behalf of the Province increased by \$2.1 million, this amount was more than offset by the \$2.6 million carried over from the previous fiscal year as a deferred grant and by accounts receivable collections totalling \$2.3 million.

CULTURAL AFFAIRS AND HISTORICAL RESOURCES (\$3.2 million increase)

Increased levels of funding for several major cultural organizations, for public libraries, and deficit reduction grants to the Winnipeg Symphony Orchestra and the Manitoba Arts Council resulted in increased spending of \$1.5 million. A special one-time capital grant to the City of Brandon for a Library and Arts Centre to commemorate the City's 100th Anniversary also contributed \$0.8 million to the increase.

ECONOMIC DEVELOPMENT AND TOURISM (\$5.1 million increase)

Increased spending of \$2.7 million on the Canada-Manitoba Industrial Development Sub-Agreement was primarily a result of acceleration of the industrial infrastructure project. Grants paid to the Manitoba Horse Racing Commission increased by \$1.2 million because of an increase in the support levels for the horse racing industry.

EDUCATION (\$97.9 million increase)

The most significant portion of the Department's increase in expenditures results from the replacement of the Foundation Program with the Education Support Program. Payments to School Divisions via the Public Schools Finance Board increased by \$69.3 million. Other significant increases pertain to increased operating support and construction related grants to Universities, for \$16.8 million, and greater school construction for northern area schools of \$3.7 million.

ENERGY AND MINES (\$2.2 million increase)

The increase in expenditure in this Department relates primarily to the full year costs associated with activities initiated in the previous fiscal year pertaining to energy supply and demand, energy conservation, and research and development into alternative energy sources and energy conservation techniques.

FINANCE (\$34.6 million increase)

Additional borrowing by the Government during 1981-82 was the main factor in the net increase of \$35.1 million in public debt costs. The interest costs increased by \$29.0 million and debt discount on new issues by \$8.5 million. These increases were partially offset by a reduction of foreign exchange costs on interest payments of \$1.5 million and a decrease in foreign exchange losses on issues retired of \$0.5 million. Expenditures under the Energy Rate Stabilization Program increased by \$18.3 million in 1981-82 primarily because of a foreign exchange loss on a Swiss Franc Issue which matured in February, 1982.

These increases were partially offset by a decrease in tax credit payments of \$17.4 million resulting from a change in income definition from individual taxable income to family net income. As well, a special grant of \$2.1 million was paid to the City of Winnipeg in 1980-81 to compensate for revenue lost by Winnipeg Hydro due to the Hydro rate freeze. A similar grant was not made in 1981-82.

GOVERNMENT SERVICES (\$8.3 million increase)

The increase in expenditure in this Department mainly reflects increased rental payments for leased accommodations, increased fuel and utility costs for all accommodations, and increased costs of repairs and gasoline pertaining to the operation of the Central Vehicle Branch. Increases in the level of Acquisition/Construction activity contributed \$1.3 million to the increase.

HEALTH (\$139.3 million increase)

Payments to the Manitoba Health Services Commission increased by \$132.2 million over the previous fiscal year primarily due to an increase of \$79.3 million in payments by the Commission to hospitals to cover general supply costs and negotiated salary cost increases, operating costs of new facilities, increased capital costs, and shortfalls due to deficits incurred by hospitals. Payments under the Medical Program increased by \$27.0 million as a result of increased volume and rates under the Medical Fee for Service activity. Personal Care Home expenditures increased by \$18.9 million due to general costs increases, operating costs of new facilities and increased capital costs. A \$3.2 million increase in Pharmacare payments occurred due to volume and price increases.

Within the Department, an increase of \$1.9 million in the Community Health Directorate resulted from increased pur-

chase costs under Medical Supplies and Home Care Equipment and from expansion of the Dental Program. The purchase of the C.N.I.B. building on Portage Avenue for \$2.3 million was the main reason for an increase of \$3.0 million in expenditures for the Alcoholism Foundation of Manitoba.

HIGHWAYS AND TRANSPORTATION (\$26.6 million increase)

Increased maintenance and construction costs for Highways and Airports and expansion of activity on the Highway Construction program increased costs by \$23.5 million. An increase of \$4.4 million in the Motor Vehicle Branch was largely the result of an increase in administrative costs of processing driver licenses and vehicle registrations. It reflects the implementation of a new cost sharing agreement with the Manitoba Public Insurance Corporation regarding agent's commissions as well as costs of \$1.2 million for license plate material. This increase was partially offset by a \$4.0 million decrease in Acquisition/Construction expenditures which was the result of the purchase of a Water Bomber in 1980-81 without a similar purchase occurring in 1981-82.

NATURAL RESOURCES (\$11.2 million increase)

An increase of \$5.0 million resulted from greater activity on Acquisition/Construction projects. Projects that experienced significant increases include land drainage reconstruction for \$1.0 million, park development for \$0.9 million and purchase of new fire suppression equipment for \$0.7 million. An increase of \$2.2 million (\$1.6 million Acquisition/Construction) was due to project delivery under the Canada-Manitoba Water Development Agreement and the Canada-Manitoba Value-Added Crops Production Agreement, both of which were entered into during 1980-81.

NORTHERN AFFAIRS (\$4.5 million decrease)

The decrease of \$6.1 million in expenditures under the Canada-Manitoba Northlands Agreement reflects a general reduction in cost-shared programming, particularly infrastructure projects, pending finalization of negotiations of a new northern agreement. This decrease was partially offset by the introduction of a new job creation program totalling \$0.5 million and increased funding of \$0.5 million for community projects.

URBAN AFFAIRS (\$8.6 million increase)

Major increases in expenditures include a \$5.5 million increase in the Block Funding Grant to the City of Winnipeg, and a \$4.4 million expenditure for land acquisition under the Canada-Manitoba Winnipeg Core Area Agreement which was signed in September, 1981. These increases were partially offset by a decrease of \$1.8 million pertaining to a special capital grant paid to the City of Winnipeg in 1980-81.

FLOOD CONTROL AND EMERGENCY EXPENDITURES (\$4.8 million decrease)

A reduction of \$7.0 million in flood control and assistance expenditure was partially offset by a \$2.2 million expenditure on the Mosquito Program and \$0.4 million on the Drought Relief Program.

EXPLANATORY COMMENTS REGARDING EXPENDITURE OBJECT CODE INCREASES (DECREASES)

For the year ended March 31, 1982

NOTE 1: AIRCRAFT RENTALS

This is a new expenditure object code established during the March 31, 1982 fiscal year to accumulate costs resulting from the rental of aircraft for use in disaster or emergency type situations such as flood, fire, etc. These costs were included in Equipment-Specialized in previous years. The "Net Object Code Expenditure 1981" has been changed to reflect the establishment of this object code for comparison purposes.

NOTE 2: AUTOMOBILES (\$3.1 million increase)

Approximately \$1.5 million of the increase in this category results from the purchase of new and replacement vehicles and \$0.7 million results from a general increase in automobile maintenance costs in the Central Vehicle Branch of the Department of Government Services. In addition \$0.5 million of the increase is attributable to higher vehicle maintenance costs resulting from the increased Highway Construction Program undertaken by the Department of Highways and Transportation.

NOTE 3: CONSTRUCTION CONTRACTS (\$13.0 million increase)

An increase of \$7.7 million in this category reflects the increased activity in the Department of Highways and Transportation on its Construction and Maintenance Programs. Construction contracts in the Department of Natural Resources increased by \$2.7 million primarily under the Canada-Manitoba Water Development Agreement.

NOTE 4: FRINGE BENEFITS (\$4.6 million increase)

The increased costs in this category resulted mainly from increased employee benefits paid by the Civil Service Commission as required by Legislation or agreement as follows: Unemployment Insurance Contributions \$1.6 million, mainly resulting from rate increases, Dental Plan \$1.1 million, which reflects the first full year cost of the Plan, Civil Service Superannuation Plan \$0.7 million, Canada Pension Plan \$0.5 million, Workers' Compensation \$0.3 million and Group Life Insurance \$0.1 million.

NOTE 5: EQUIPMENT — SPECIALIZED (\$3.6 million decrease)

Decreases in the expenditure for specialized equipment occurred in several Departments. Expenditures of \$2.0 million were made by the Department of Agriculture under the Hopper Car Leasing Program in the previous fiscal year whereas no similar cost was incurred in this fiscal year. Similarly, the Department of Government Services purchased a Cessna Citation Aircraft for \$1.8 million and the Department of Highways and Transportation purchased a Water Bomber for \$4.8

million in the previous fiscal year whereas there were no aircraft purchases in this fiscal year.

These decreases were partially offset by an increase of \$1.4 million related to the Mosquito Spraying Program, an increase of approximately \$1.0 million in the Highway Construction Program and an increase of \$0.8 million in the Department of Education for Community Colleges.

NOTE 6: OTHER FEES (\$5.7 million increase)

Increased costs in this category result mainly from \$1.0 million in expenditures by the Department of Legislation for the November, 1981 Election and an additional \$2.4 million in expenditures by the Department of Highways and Transportation which reflects the implementation of a new cost sharing agreement with the Manitoba Public Insurance Corporation.

NOTE 7: FINANCIAL AND DEBT CHARGES (\$54.3 million increase)

Approximately \$35.1 million of the increase in this category results from additional borrowing by the Government. The interest costs increased by \$29.0 million and debt discount on new issues by \$8.5 million. In addition expenditures under the Energy Rate Stabilization Program increased by \$18.3 million primarily because of a foreign exchange loss on a Swiss Franc Issue which matured in February, 1982.

NOTE 8: FREIGHT, EXPRESS AND CARTAGE (\$4.2 million decrease)

The decrease in this category is due to the discontinuation of the Drought Relief Program and related hay purchases by the Department of Agriculture.

NOTE 9: GRANTS (\$218.9 million increase)

Significant increases or decreases in the amount of grants paid under certain programs occurred in the following Departments:

a) HEALTH (134.5 million increase)

Payments to the Manitoba Health Services Commission increased by \$132.2 million over the previous fiscal year primarily due to an increase of \$79.3 million in payments by the Commission to hospitals to cover general supply costs and negotiated salary cost increases, operating costs of new facilities, increased capital costs, and shortfalls due to deficits incurred by hospitals. Payments under the Medical Program increased by \$27.0 million as a result of increased volume and rates under the Medical Fee for Service activity. Personal Care Home Expenditures increased by \$18.9 million due to general cost increases,

operating costs of new facilities and increased capital costs. A \$3.2 million increase in Pharmacare payments occurred due to volume and price increases.

Within the Department, the purchase of the C.N.I.B. building on Portage Avenue for \$2.3 million was the main reason for an increase of \$3.0 million in expenditures for the Alcoholism Foundation of Manitoba.

b) EDUCATION (\$89.8 million increase)

The most significant portion of the Department's increase in expenditures results from the replacement of the Foundation Program with the Education Support Program. Payments to School Divisions via the Public Schools Finance Board increased by \$69.3 million. Other significant increases pertain to increased operating support and construction related grants to Universities, for \$16.8 million, and greater school construction for northern area schools of \$3.7 million.

c) AGRICULTURE (\$5.2 million increase)

The establishment of the Manitoba Hog Producers Income Insurance Fund increased costs in this category by \$5.0 million.

c) COMMUNITY SERVICES AND CORRECTIONS (\$4.6 million increase)

The amount paid for the Maintenance of Children and Day Care Programs increased by \$1.0 million and \$1.5 million respectively, mainly due to program expansion.

e) FINANCE (\$19.3 million decrease)

The above increases were partially offset by a decrease in tax credit payments of \$17.4 million resulting from a change in income definition from individual taxable income to family net income. As well, a special grant of \$2.1 million was paid to the City of Winnipeg in 1980-81 to compensate for revenue lost by Winnipeg Hydro due to the Hydro rate freeze. A similar grant was not made in 1981-82.

NOTE 10: LAND AND BUILDING PURCHASES (\$5.9 million increase)

The increase in this category is mainly in the Department of Urban Affairs as a result of expenditures of \$4.2 million under the Winnipeg Inner City Core Agreement and \$0.5 million under the Agreement for Recreation and Conservation for the Red River Corridor. These were two new programs initiated during the 1981-82 fiscal year.

NOTE 11: MATERIALS — OTHER (\$5.7 million increase)

The increase in this category primarily reflects the increased costs of materials such as fuel and asphalt incurred in the Department of Highways and Transportation on its regular construction and maintenance programs.

NOTE 12: MISCELLANEOUS (\$4.4 million increase)

Law enforcement costs via the Attorney-General's Department, increased by \$3.5 million primarily due to general costs increases and partially as a result of the signing of a new policing agreement. Costs shared by the Province under the new agreement will now be calculated on a current basis rather than by the previous formula which used the previous year's costs.

NOTE 13: SALARIES AND WAGES (\$39.9 million increase)

The increase of \$39.9 million in the cost of salaries and wages paid by the Government results primarily from the general salary increase that was negotiated with employees for the 1981-82 Salary Agreement.

NOTE 14: SEED, GARDEN FEED AND FODDER (\$10.4 million decrease)

An expenditure of \$10.4 million was made in the previous fiscal year for emergency feed under the Drought Relief Program by the Department of Agriculture. There was no similar expenditure in the 1981-82 fiscal year.

NOTE 15: SUBSISTENCE (\$19.3 million increase)

The increase largely reflects the higher costs of food and shelter under the assistance programs administered by the Department of Community Services and Corrections. The largest increases occurred in the Social Security Programs and the Maintenance of Children Programs. As well, the operation of the Child Related Income Support Program (C.R.I.S.P.) for its first full year increased costs by \$5.5 million.

NOTE 16: SUPPLIES — PRINTING AND STATIONERY (\$1.9 million increase)

The increase in this category reflects a general increase in product costs as well as an increase of \$0.6 million in expenditure by the Department of Legislation for supplies for the November 1981 General Election.

DEPARTMENT OF MUNICIPAL AFFAIRS
MINISTER'S TRUST ACCOUNT
AUDITOR'S REPORT

I report that the accounts and financial statements of the Department of Municipal Affairs, Minister's Trust Account have been examined under my direction for the fiscal year ended March 31, 1982. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the financial statements, being Exhibits A and B, present fairly the financial position of the Minister's Trust Account as at March 31, 1982 and its receipts and disbursements for the year then ended. The financial statements were prepared on an accounting basis consistent with that of the preceding year and are in agreement with the books of the Department.

W. K. Ziprick, C.A.,
Provincial Auditor.

July 23, 1982,
Winnipeg, Manitoba.

THE MANITOBA TEXT BOOK BUREAU
AUDITOR'S REPORT

I report that the financial statements of The Manitoba Text Book Bureau have been examined under my direction for the fiscal year ended March 31, 1982. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the financial statements, being Exhibits A and B, together with the notes thereto, present fairly the financial position of The Manitoba Text Book Bureau as at March 31, 1982 and the results of its operations for the year then ended in accordance with the accounting policies stated in note 1 to the financial statements applied, except as indicated in note 1(b), on a basis consistent with that of the preceding year.

THE MANITOBA TEXT BOOK BUREAU

Notes to Financial Statements
for the year ended March 31, 1982**1. Accounting Policies**

- a) The Bureau's financial statements are prepared using the accrual basis of accounting.
- b) Capital acquisitions are now reflected as expenses of the Bureau in the year of asset acquisition. Previously, capital acquisitions were depreciated on a straight-line basis at 20% per year. The 1981 figures have accordingly been restated to conform to the current policy, causing a reduction in 1981 expenses of \$2,173 and an increase of \$2,173 to expenses of prior years. This change in policy has also caused an increase in expenses for March 31, 1982 of \$53,894.
- c) The employees of the Bureau, which is a branch of the Department of Education, are civil servants and pensionable under the Civil Service Superannuation Fund, to which they contribute at prescribed rates. The Government of the Province of Manitoba is required to pay 50% of the Fund's pension disbursements made to retired employees from its appropriation. No provision is made in the Bureau's accounts to fund present or past employee service obligations.

2. Outstanding Commitments

Commitments on orders placed prior to March 31, 1982 for merchandise to be delivered subsequent to that date, were estimated to amount to \$1,845,079 as at March 31, 1982 (\$1,745,560 as at March 31, 1981).

AUDITOR'S REPORT**

I report that the accounts and financial statements of The Northern Affairs Fund have been examined under my direction for the fiscal year ended March 31, 1982. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, the financial statements, being Exhibits A to D, together with the notes thereto, present fairly the financial position of The Northern Affairs Fund as at March 31, 1982 and the results of its operations for the year then ended. The financial statements were, except as explained in Note 4, prepared on an accounting basis consistent with that of the preceding year and are in agreement with the books of the Fund.

**Notes to Financial Statements
for the year ended March 31, 1982**

1. The surplus and allowance for tax assets of \$484,791 as at March 31, 1982 consists of the following: surplus — \$388,168, allowance for tax assets — \$96,623; the comparable amounts as at March 31, 1981 were \$264,159 and \$88,955 respectively.
2. Administration costs of operating the Fund are paid out of appropriations of the Department of Northern Affairs and are not reflected in the Fund's financial statements.
3. A working capital fund of \$50,000 is maintained in the Taxation Account to cover current needs. Amounts in excess of \$50,000 are transferred to the Province of Manitoba as a contribution to costs incurred by the Province to provide services in remote areas which do not have a local government to provide these services.
4. Consistent with a change in budgeting procedures effective April 1, 1981, the Taxation Account Statement of Revenue and Expenditure, Exhibit C, has been revised to net the amount previously shown under revenue as school levies charged to Northern communities against the amount previously shown under expenditure on Community Councils for local services, which included expenditures on account of school levies. The 1981 figures have been reclassified to conform with this presentation.
